

5th ISSESR

SYDNEY • AUSTRALIA

On behalf of the Organising Committee, you are invited to the

5th International Symposium on Stock Enhancement and Sea Ranching

in

Sydney, Australia

11th-14th October 2015

The International Symposium on Stock Enhancement and Sea Ranching attracts fisheries enhancement professionals from across the globe to confront contemporary biological, ecological, social, and economic issues.

ISSESR provides the opportunity to showcase preeminent science and management supporting stock enhancement and sea ranching. Proceedings from previous symposia (held in Norway, Japan, USA and China) represent the most highly cited works in the field.

The 5th ISSESR will be held in conjunction with the 2015 Australian Society for Fish Biology Conference. For more information please visit www.searanching.org, or contact info@issesr5.org to register your interest.
